

GHS / CLP TRAINING OFFER

PENNY WILLIAMS

WHAT ARE GHS AND CLP?

Throughout Europe new regulations revolutionise the way we determine and communicate the hazards of chemicals and mixtures.

These regulations are the Classification, Labelling and Packaging of Substances and Mixtures regulations (CLP), which are Europe's answer to GHS - the Globally Harmonized System of Classification and Labelling of Chemicals.

SPECIAL OFFER ! JULY & AUGUST

Training Sessions booked to be taken in July or August 2010 benefit from 20% reduction.

On Site training offer starting from £400 + travel

Usual Price £500

New Health Hazard Pictogram (Symbol)

WHO IS AFFECTED?

Everyone involved in the manufacture, import and supply of chemicals and mixtures, including:

Chemicals Essential Oils
Flavours Fragrances

WHAT IS CHANGING?

Most things, including

Hazard Criteria & Labels
Symbols, Risk & Safety Phrases
Safety Data Sheets

**CONTACT US FOR
MORE DETAILS**

WHEN?

Classification & labelling in accordance with CLP is mandatory for **Substances (inc Essential Oils) from December 2010 & Mixtures from June 2015**. All Safety Data Sheets change from Dec 2010, (due to Revisions of REACH Annex II)

HOW CAN WE HELP?

We provide on site training sessions in CLP and GHS, starting from first principles with benefits for all. Flexible content is available to suit different requirements and levels of knowledge, including sessions for:

Senior Management - GHS / CLP introduction, business implications & responsibilities

Regulatory Affairs & Formulators - Overview, GHS / CLP criteria, classifications and worked examples

Regulatory Affairs - Revised Safety Data Sheet requirements

Laboratory & Production - Introduction, changes in terminology, effect on labels, safety data sheets & examples
